To Whom It May Concern:

It is an honor to write this letter of recommendation on behalf of American Power. American Power and the San Juan Unified School District (SJUSD) staff have partnered on over 30 lightning retrofit projects in six years.

My experiences working with this firm have been positive, well organized and coordinated and timely. In every interaction their firm and staff has been knowledgeable, detailed, flexible, responsive, and collaborative. Their interactions at school site staff have always been overly professional and thoughtful.

As a school district with over eighty facilities and thousands of employees the quick and ongoing success of the lighting retrofit projects speak to American Powers' ongoing dedication and commitment to our community and SJUSD's facilities. They have saved the District thousands of dollars over the years through grants and SMUD incentives.

American Power reaches out to offer us "free" services on a regular basis as outstanding stewards in public service.

I am pleased to recommend American Power and, in closing, I give them my highest recommendation. Contact me at (916) 206-0112 or (916) 971-5720 as needed.

Sincerely,

Cynthia Jensen
Director of Planning
